

The Gazette of India

PUBLISHED BY AUTHORITY

SIMLA, SATURDAY, AUGUST 7, 1954

Separate paging is given to this Part in order that it may be filed as a separate compilation.

PART III—SECTION 2

Notifications and Notices issued by the Patent Office relating to Patents and Designs

THE PATENT OFFICE Patents and Designs

Calcutta, the 7th August 1954

Special Notice

It is hereby notified for general information that the following Groups of Abridgments of Patent Specifications (Nos. 25,001 to 30,000) have been published and copies thereof are available for sale with the Manager of Publications, Civil Lines, Delhi.

Copies are also available for sale locally at the counter on cash payment with the Government of India Book Depot, 8, Hastings Street, Calcutta :—

Group XXI—Weaving and Knitting.

Group XLV—Steam Engines and Locomotives.

Applications for Patents

The dates shown in crescent brackets are the dates claimed under Section 78A of the Act.

22nd July 1954

52384. N. V. Philips' Gloeilampenfabrieken. Improvements in or relating to slagforming bodies for use in butt-welding.

52385. Y. Liljamo. Method of treating straw and providing products suitable for industrial purposes, especially as insulating and filling materials, and apparatus for carrying out the said method.

23rd July 1954

52386. K. R. Rao. Automatic syringe for mass inoculations of live-stock.

52387. Ogale Glass Works Limited. Improved wick stove.

52388. N. Subramanian. A method of remote selection.

52389. B. M. Beards. Ice refrigeration unit.

52390. B. M. Beards. Water-cooler cum cold-storage ice unit.

52391. Godrej & Boyce Manufacturing Company Limited. Improvements in or relating to metal, particularly steel, cupboards and like articles of furniture, chests, boxes and like containers.

52392. The Mond Nickel Company Limited. Process and apparatus for making additions to liquid metal.

52393. Artbangle Limited. Improvements in or relating to spectacle frames.

24th July 1954

52394. Council of Scientific and Industrial Research. A process for the electrolytic preparation of cuprous oxide.

52395. N. V. Philips' Gloeilampenfabrieken. Improvements in or relating to electrically-conductive bodies for use in butt-welding.

52396. R. A. Lister & Company Limited. Improvements in or relating to internal combustion engines and pistons therefor.

52397. Ciba Limited. Process for the preparation of esters.

52398. A. Hieke. Process for the manufacture of multi-coloured mottled and horn-imitation plastic-buttons and of other plastic-articles.

52399. H. J. Longley. Improvements in or relating to steering devices for four-wheeled vehicles such as trucks, barrows, trolleys, carts, trailers or the like.

26th July 1954

52400. Inventa A. G. fur Forschung und Patentverwertung. Process for the continuous polymerisation of lactams. (17th June 1954).

52401. Dunlop Rubber Company Limited. Composite products of rubber and textile material. (1st August 1953). [Addition to No. 42620.]

52402. Dunlop Rubber Company Limited. Composite products of synthetic resins and textile materials. (1st August 1953).

52403. B. B. Chemical Company Limited. Improvements in or relating to thermoresponsive adhesives and to apparatus for handling the same.

52404. Universal Oil Products Company. Improvements in or relating to antioxidant compositions and food products stabilized therewith.

52405. A. G. Heron. Improvements in or relating to the defrosting of refrigerating apparatus.

52406. W. G. Mullen. Damping system and method of using same. (22nd December 1953).

52407. Westinghouse Air Brake Company. Fluid pressure brake equipment.

52408. General Electric Company. Improvements in or relating to coating composition.

52409. Genatosan Limited. Manufacture of Dihydropyridazinedione.

52410. British Telecommunications Research Limited. Improvements in or relating to electrical signalling apparatus. (7th August 1953).

52411. British Telecommunications Research Limited. Improvements in and relating to electric filter circuits. (27th August 1953).

52412. British Telecommunications Research Limited. Improvements in and relating to electric signalling systems. (21st September 1953).

27th July 1954

52413. N. V. Philips' Gloeilampenfabrieken. Improvements in or relating to materials consisting of paper impregnated with phenol-aldehyde condensates.

52414. N. V. Philips' Gloeilampenfabrieken. Improvements in or relating to devices comprising two gaseous and or vapour discharge tubes stabilized capacitively and inductively respectively.

52415. Massey-Harris-Ferguson (Sales) Limited (formerly named Harry Ferguson Limited). Improvements in or relating to implements for attachment to tractors. (30th July 1953).

52416. E. C. E. Hemsted. Improvements in and relating to the preparation or treatment of soluble fibres and articles made therefrom. (5th August 1953).

52417. Ciba Limited. New Monoazo-dyestuffs and processes for making same.

52418. N. V. De Bataafsche Petroleum Maatschappij. Cur-ing glycidyl polyethers with M-phenylene dia-mine.

52419. A. H. Hunt (Capacitors) Limited. Improvements in or relating to electrical capacitors. (31st July 1953).

52420. A. H. Hunt (Capacitors) Limited. Improvements in or relating to the manufacture of electrical capa-citors. (31st July 1953).

52421. L. Woolcott. An article of furniture convertible for use as a bed.

52422. The Mining Engineering Company Limited. Im-provements in conveyors. (4th August 1953).

52423. British Insulated Callender's Cables Limited. Im-provements in terminations and joints for high voltage electric cables. (11th August 1953).

52424. Union Carbide and Carbon Corporation. Primary Galvanic battery and method of making same. (1st June 1954).

28th July 1954

52425. Satya Brata Ghose. Improvement in electric switch.

52426. M. J. Gujerathi. Gauge testing machine for finding thickness of sizing and drying range cylinders.

52427. D. Napier & Son Limited. Epicyclic transmission gearing. (17th August 1953).

52428. Dronfield Brothers Limited and S. W. Dronfield. Improvements in or relating to the mounting of card clothing on the cylinder or doffer of a carding engine.

52429. Houilleres Du Bassin De Lorraine. Method of pro-ducing metallurgical coke.

52430. Hans Von Fraunhofer and H. E. Coote. Improve-ments in and relating to colour photographic processes and materials. (29th July 1953).

52431. Merck. & Co., Inc. Antiviral substances and pro-cesses and processes for preparing the same. (26th July 1954).

52432. The Parker Pen Company. Writing instrument.

52433. Universal Oil Products Company. Improvements in or relating to aluminiferous materials.

52434. Ciba Limited. Manufacture of new esters.

Alteration of Date

51254. Ante-dated 22nd April 1953, under Section 5 of the Act.

52279. Ante-dated 14th January 1953, under Section 5 of the Act.

Applications Accepted

Notice is hereby given that all persons interested in opposing the grant of patents on any one of the applica-tions referred to below may at any time within four months of the date of this Gazette of India give notice to the Patents Office in the prescribed form No. 6 of the Indian Patents and Designs Rules, 1933, of such opposition.

A limited number of printed copies of the specifications in the following list will be available for sale from the Manager of Publications, Civil Lines, Delhi, and also on cash payment at the counter of the Government of India, Central Book Depot, 8, Hastings Street, Calcutta, in the course. The price of each specification is Rs. 2 (postage extra, if sent out of India). Requisition for the supply of printed specifications should be accompanied by the numbers of the specifications as shown in the following list.

If required typed copies of the specification together with copies of drawings, if any, can be supplied by the Patent Office, on payment of the necessary charge which may be ascertained on application to the office.

The dates shown in crescent brackets are the dates allowed under Section 78-A of the Act.

3444. K. K. Shah. Adjustable brush-handle. Accepted on 23rd July 1954.

Comprising semi-circular plate having three slots affixed to brush foundation, a cylindrical tube carrying handle adjusted in central slot with a strip with means of adjustment at desired angles.

48559. Dr. A. L. Wenner-Gren. Track and vehicle instal-lation for monorail type vehicles. Accepted on 28th July 1954.

At least the underside of the supporting member—and the faces of the uprights opposite to the direction of travel are rounded to have an aerodynamically favourable shape.

48745. O. Benedek. Improvements in and relating to the degumming of fibrous plant material. Accepted on 24th July 1954.
Treating fibrous material with a dilute aqueous solution of a salt of an alkali or alkaline earth metal and then with an aqueous solution of a surface active agent consisting of a sulphated fatty oil or fat and containing a phosphate.

48746. O. Benedek. Process for rendering fibrous plant material suitable for the manufacture of surgi-cal wadding and surgical wadding made therefrom. Accepted on 24th July 1954.
Treating at atmospheric temperature with an aqueous solution of a water soluble metallic salt which has neutral reaction.

48862. Wingfoot Corporation. Improvements in brake as-semblies. Accepted on 22nd July 1954.
Pressure actuated switch reduces pressure exerted by brake means when switch is closed.

48882. Dr. Ing. h.c.F. Porsche K.-G. Improvements in independent wheel suspensions of the steered wheels of motor vehicles. Accepted on 24th July 1954.
Shock absorbers jointed to the ends of longitudinal arm ends and suspended vertically sup-ports the axle journal carriers.

48910. Automatic Telephone and Electric Company Limit-ed. Improvements in telecommunication systems. (8th February 1952). Accepted on 27th July 1954.
Two responding devices are associated with each lead at the receiving end and a variable electrical condition is applied to one or both leads at the transmitting end.

48911. Automatic Telephone & Electric Company Limited. Improvements in telecommunication systems. (8th February 1952). Accepted on 27th July 1954.
A marking circuit arranged to receive a plurality of digits designating a wanted line and to control the operation of selector switches.

48925. C. H. Booth and H. B. Hardwick. A new or im-proved cutting or abrading tool. (6th February 1952). Accepted on 24th July 1954.
Cutting tool of tubular form of flexible material wound helically with multiplicity of holes and sharp cutting edges upset from the material.

48934. K. T. Achaya, S. A. Saleto and S. H. Zaheer. Im-provements in or relating to the manufacture and purification of fatty acids. Accepted on 26th July 1954.
A mixture of fatty acids is treated with 1—5 times its weight of urea in saturated solution of 80 per cent. aqueous ethanol, the precipitate is separated from the liquor and the fatty acids are recovered by boiling the precipitate and the mother liquor separately with water.

48942. S. R. L. Studi E Brevetti Applicazioni Tessili. Method and apparatus for the production of yarn cheeses. Accepted on 28th July 1954.
Instantaneous differences between winding-up speed feeding rate are compensated by varying the path travelled by the yarn.

48951. Skf Kugellagerfabriken Gesellschaft Mit Beschränkter Haftung. Drawing frame. Accepted on 28th July 1954.
Rear cap embracing rear portion of bar sup-porting top rollers and its support rests with inner surface of its back portion on their rear end due to dead weight and action of biasing means.

48956. E. Buhrer. Method of clamping the moulding flask during the operation of drawing the mould from the pattern and apparatus for carrying out the method. Accepted on 28th July 1954.
Surfaces are provided on the moulding flask and on the clamps of gripping device and when the surfaces make contact they become the holding surfaces without causing any change in the posi-tion of the latter.

48968. Skf Kugellagerfabriken Gesellschaft Mit Beschränkter Haftung. Drawing frame. Accepted on 28th July 1954.
Long bracket supporting front pair of top rollers and extending over top rollers arranged between short brackets supporting remaining top rollers and their axles.

48969. Warner-Hudnut, Inc. Improvements in or relating to the preparation of relaxin. Accepted on 26th July 1954.
Extracting ovaries of pregnant animals, treating with salt and filtering to remove solid material, precipitating crude hormone from the filtrate.

49004. Schiess Aktiengesellschaft. Bobbin holder arrangement for spinning machines and the like. Accepted on 26th July 1954.
Comprising in combination a creel, a plurality of holding means carried by said creel, the lower ends of the two adjacent holding means being arranged at different horizontal planes spaced from each other by a portion of the bobbin length.

49113. Automatic Telephone & Electric Company Limited. Improvements in telephone systems. (14th March 1952). Accepted on 28th July 1954.
Provided with facilities which enable a calling party to set up a local connection while holding a main exchange.

49174. Imperial Chemical Industries Limited. Colour photographic images. (21st March 1952). Accepted on 27th July 1954.
Developing an exposed gelatine-silver halide emulsion layer with a primary aromatic amino developing agent in the presence of a colour coupler.

49182. Howrah Trading Co. Ltd. Fittings and clamps for the axles in a tractor. Accepted on 23rd July 1954.
Axle is made of I section and is held with in a block secured to the chassis.

49191. Joseph Bancroft & Sons Co. Improvements in or relating to preparation adapted for imparting resin finishes to fabrics. Accepted on 28th July 1954.
Applying to fabric a solution of a combination of the resin polyvinyl alcohol along with other resins.

49241. British Telecommunications Research Limited. Improvements in or relating to regenerative repeaters as used in start-stop telegraph systems. (25th March 1952). Accepted on 24th July 1954.
Including pulse generator for providing pulses to determine instants of sampling, if the stop element is missing at the instants, control equipment for the generator being arranged to maintain operation of the repeater if there is no change in the signal since the initial start condition.

49648. Colgate-Palmolive Company. Dentifrice compositions. Accepted on 27th July 1954.
Comprising polishing agent and condensation product of ethylene dioxide and polypropylene glycol.

50048. R. P. Aggarwal. A substitute of Agar Agar in bacteriological media. Accepted on 26th July 1954.
Treating "Ispahol" botanically known as plantago ovata with alkalies neutralising the alkali and drying to thin chips or powder.

50286. Pilkington Brothers Limited. Improvements in or relating to methods of and apparatus for manufacturing toughened bent glass. (20th September 1952). Accepted on 27th July 1954.
Heating flat glass to its softening temperature and warping itself about a forming member and continually supporting the glass to each side of the bend by yielding plane members.

50426. N. V. Philips' Gloeilampenfabrieken. Improvements in or relating to methods of manufacturing 2,5-dichloro alkali phenolate. Accepted on 28th July 1954.
Reacting hexachloro hexane with alkali hydroxide in presence of methanol at 160—180°C.

51074. K. N. Palshikar. A sowing machine. Accepted on 28th July 1954.
The ratio of seed regulating to seed non-regulating part is more than 3 : 1.

51202. P. Reggiani. Improvements relating to springs of rubberised fabric in strip form. Accepted on 27th July 1954.
Impregnating a sheet of fabric with unvulcanised rubber compound, cutting the impregnated sheet into strips on the bias joining the strips from end to end and vulcanising the continuous length of joined strips.

51207. H. W. Burrrington. Improvements in or relating to false-twisting devices. Accepted on 27th July 1954.
Comprising an electric motor, the motor spindle bearing a twister being provided with a bore through which the yarn is passed.

51249. Standard Telephones and Cables Limited. Improvements in or relating to intelligence storage equipment. (25th March 1953). Accepted on 28th July 1954.
Comprises a memory divided into storage section and a test section, recording and reading means and control circuit.

51254. H. W. Burrrington. Improvements in or relating to wet spinning of polyacrylonitrile from salt solutions. [Divisional date, April 22, 1953.] Accepted on 26th July 1954.
Wet spinning aqueous salt solutions of acrylonitrile polymers through a bath containing an organic peptizing agent for the polymer.

51408. Societe Des Acieries De Pompey. Process of manufacturing low alloy steel and steel articles made from said steel, in particular oil wells tubing. Accepted on 26th July 1954.
By subjecting steel containing in addition to carbon and iron, silicon, aluminium, chromium and manganese to a heat treatment comprising an austenite forming step followed by atmospheric cooling and long tempering or annealing at 500—700°C.

51478. Automatic Telephone and Electric Company Limited. Improvements in or relating to automatic switches for use in telephone or like systems. (14th March 1953). Accepted on 28th July 1954.
Comprises at least one wiper member in the form of wire of hair-pin shape clamped at its free ends.

51803. V. P. Asar. Improvements in or relating to built up boards. Accepted on 23rd July 1954.
Core comprises series of wooden strips of small width separated from each other.

51890. Atmospheric Control Limited. Improvements in fluff and dust removing systems for cotton and like carding machines. (20th May 1953). Accepted on 23rd July 1954.
Comprising a filler box located at one side of the machine with means applying section to such box, ducts leading from said box to its forward and rear ends.

51904. Bata Shoe Company Limited. Improvements in or relating to the manufacture of shoes or like footwear. Accepted on 26th July 1954.
Wherein the upper is permanently secured to the sole by means of an adhesive.

51906. Daimler-Benz Aktiengesellschaft. Improvements relating to pre-combustion-chamber diesel engines. Accepted on 23rd July 1954.
Precombustion chamber formed by insert in axial direction of vortex formed by tangential opening of transfer port into it; fuel injection nozzle opens in the same direction as vortex; insulating space between insert and cooled part of cylinder head.

52279. Automatic Telephone & Electric Company Limited. Improvements in telephone systems. (16th January 1952). [Divisional date, January 14, 1953.] Accepted on 14th July 1954.
A static switching device is provided individual to each one digit or combination of digits.

Printed Specifications Published

A limited number of printed copies of the undernoted specifications are available for sale from the Manager of Publications, Civil Lines, Delhi, or on cash payment at the counter of the Government of India, Central Book Depot, 8, Hastings Street, Calcutta, at two rupees per copy :—

46197. 46237. 46351. 46545. 46655. 46921. 47054. 47214. 47476.

Amendment Proceedings

(1)

The amendment proposed by Sterling Drug Inc., in respect of Patent No. 47399 as advertised in the Gazette of India, Part III, Section 2, dated the 24th April 1954 has been allowed.

(2)

The amendment proposed by Cooperatieve Verkoop—En Productievereniging Van Aardappelmeel En Derivaten "Avebe" G. A., in respect of Patent No. 48630 as advertised in the Gazette of India, Part III, Section 2, dated the 24th April 1954 has been allowed.

Registration of Assignments, Licences, Etc.

Assignments, Licences or other transaction affecting the interests of the original patentees have been registered in the following cases. The number of each case is followed by the names of the parties claiming interest :—

27907 Appasheb Bhujaballi Gargatti.
 31526 Chandrakant Bhujaballi Gargatti, and
 Nirmalkumar Bhujaballi Gargatti.
 45228 Carrier Corporation.
